Can exclude this box, was originally going to be a directory, but I don't think that's needed
Directs to Login Page when not signed in. Becomes a Profile Button that Directs to User's Profile when signed in.
Story Title
Sign In
Story Text
Maybe Put the title of a branch here
Thinking this should actually be a page indicator/feature similar to the main page, with the current page bolded, and the numbers of the adjacent pages visible and clickable (and directing to the respective page when clicked).
Branch Option 1
Branch Option 2
(up to 5 Branches)
Page #
Directs to corresponding Branch, will display appropriate branch title
Create Branch
(Goes away once 5 branches are created)
Directs to Edit Page to Create New Branch. Will choose one or the other depending on which one looks best
Previous
Next
Branch
Directs to previous page of text
Directs to next page of text
Will need a bookmark button, preferably here, that allows a user to return to a page.
Comments
Button that shows or hides comments
Typical comment section where user inputs comments, with usual comment section features. User has to be logged in first.
