# Create An Account

(Description)
Creating an Account will allow you to start and edit your own stories, as well as add to other people's stories...

**Enter Email**

Email

User enters email. Authenticates when they click Create Account Button. Ideally would indicate if they have an invalid email

**Enter Username**

Username

User enters a username. Authenticates when they click Create Account Button by making sure it doesn't already exist. For now, we won't have any restrictions on what usernames can be entered, except for maybe curse words.

**Enter Password**

Password

User enters a password. Has to be a minimum of 4 characters. If possible it would probably be best if it required a number.

**Re-Enter Password**

Password

User re-enters password. Authenticates whether it matches original password when user clicks Create Account Button.

**Please Answer the following question**

Which of the following best describes you?

○ A professional writer

○ A hobbyist writer

○ Not a writer but an avid reader

○ Not a writer but an occasional reader

○ Neither a writer nor a reader, just curious about the site

Single Response question. For now user has to enter a response. Authenticates presence of a response when Create Account Button is clicked.

**Create Account!**

Authenticates inputs above. Directs to Login page if no issues, generates error message at top of page if there are.
